

STANDARDS UPDATE NOTICE (SUN) ISSUED: July 10, 2024

STANDARD INFORMATION

Standard: UL 73

Standard ID: Motor-Operated Appliances [UL 73:2011 Ed.10+R:06Oct2023] **Previous Standard ID:** Motor-Operated Appliances [UL 73:2011 Ed.10+R:14Dec2022]

EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

Effective Date: October 6, 2025

IMPACT, OVERVIEW, AND ACTION REQUIRED

Impact Statement: Per our accreditation, Intertek is required to review reports against the standard revisions to confirm compliance. Once compliance is confirmed, the standard reference in the report is updated to show continued compliance to the technical requirements of the standard. Reports not updated to this version by the effective date above will be withdrawn.

Overview of Changes:

- Addition of Supplement SB Covering Commercial Germicidal Appliances with Contained UV Sources
- Addition of Shorter Cord Length Requirements for Indoor, Household Use, Countertop, or Tabletop Carbonators

Specific details of new/revised requirements are found in table below

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.

STANDARD INFORMATION

CLAUSE	VERDICT	COMMENT
		Additions to existing requirements are <u>underlined</u> and deletions are shown lined out below.
12	Info	Supply Connections
12.2	Info	Cord-connected appliances
12.2.1	Info	Carbonators
12.2.1.2		New clause added;
		With reference to 12.2.2.7, a countertop or tabletop carbonator intended for household use, indoor use only, may be provided with a cord length not less than 2 ft (0.6 m).
Supplement SB		New supplement added;
		COMMERCIAL ULTRAVIOLET (UV) GERMICIDAL APPLIANCES – CONTAINED UV SOURCES
		The requirements in this supplement cover commercial germicidal appliances that use ultraviolet (UV) energy to sanitize the surfaces of objects. These appliances contain the energy within the product's enclosure and are provided with equipment safeguards that prevent or reduce the likelihood of UV exposure to persons that could otherwise pose a risk of personal injury. These appliances may or may not employ a motor. These requirements supplement, or in some cases, modify the general requirements in Sections 2 – 79 of this Standard.
		These appliances generate ultraviolet radiation and are intended for use in accordance with Title 21 Code of Federal Regulations (CFR) Parts 1000 through 1004, and section 1005.25.
		See standard for details.
